Winemaking Process Partial de-stemming, fermentation at controlled temperature (24°-28°C), when must reached the desired sweetness value, fermentation was interrupted by the add of brandy; following a period of maturation in oak barrels, in the warehouses of Vila Nova de Gaia.

Tasting Notes This crop shows a exquisitely evolution of the tertiary aromas, which in combination with the reduction aromas lead to a superior quality wine. The aroma is rich in spices and dry fruits, we may confirm at taste.
